Date: Tuesday, July 07, 2015 10:08:00 AM

Hello Stacey:

My attorney has advised me not to send the letter for various reasons. I did speak with Richard Palmer and let him know that all EPA cleanup activities can be found on the Odessa Biodiesel website in my polreps (pollution reports). I gave him the website address and explained to him why I can't write the letter that you are requesting.

If you would like to speak with my attorney, she can be reached at:

- Kris Leefers
- 206-553-1532
- Leefers.kristin@epa.gov

Thanks,

Mike Sibley

Hi Mike,

I understand that Richard Palmer from Global Clean Energy Holdings has been in touch with you regarding the requested "clean letter" for the Odessa Biodiesel Facility. I am wondering if you have heard back from the attorney about the possibility of such letter and when we might be able to obtain it? Our current timeline for closing the sale of the facility is by August 1st. In that timeline, an environmental study was not planned, due to the fact that the EPA had just been onsite. Is there anyway you would be able to get that

letter to the OPDA by July 17, to allow for enough time to process the document and close the sale by August 1st? Any update you have on the status of this letter would be appreciated. Thank you for your help!

Stacey

Hi Stacey:

The attorney has not gotten back to me as of yet. I will ask him again once I get back in the office tomorrow. However, as I stated before we (EPA) have never sent such a letter before that I can remember especially since this is an ongoing case, but I will ask again.

Thanks,

Mike Sibley

Did you happen to speak to the attorney about this letter that our new buyer has requested? Thanks for your help!

Hi Stacey:

Well I will have to check with the attorney's, because I have never written such a letter. I will get back to you but it probably won't be until next week. I'm in training all this week.

I don't think there will be a problem. You should also know that all the hazardous materials have been removed, and the tanks were emptied, but we did not clean the tanks or the associated piping.

Thanks,

Mike Sibley

Michael,

We are moving forward with the sale of the biodiesel facility and the potential purchaser would like a letter from the EPA that states the facility is clean and all hazardous materials have been removed. Are you the right person I would ask for such a thing? If not, could you point me in the right direction? Thank you!
